

Capability Statement

Black Viper Technologies, Inc., mission is to engage in Cyber Security & Information Technology Consulting within Government enterprises and Military Intelligence fields. Our capabilities include providing the most up to date Cyber Security and Systems Engineering Methodologies and Techniques within Government Enterprises. Our company also offers Training & Technical writing for these IT disciplines.

Core Competencies:

- **Cyber Security / Information Assurance:** Risk Assessment, Threat Intelligence, Policy & Government, Framework & Standards, Security Operations, Security Systems Engineering, Training, Documentation & Technical Writing for Cyber Security Systems and Methodologies
- **System Engineering:** Design, Installation, Maintenance, Sustainment, Systems Administration, Data Flow Analysis, Intelligence Analysis, Data Science, Trouble Shooting, Systems Diagnostics, Repair, Break fix, Performance Tuning, Systems Health & Analysis, and Performance Metrics
- **Training / Instruction:** Lectures, Briefings, Hands on Training, Group Discussion, Side-saddle & One on One Training, e-Learning, Tutorials, Videos, Curriculum Development, Exercise Support to 24/7-365 Day a Year Operations Centers, Games, Knowledge Checks, and Exams
- **Technical Writing:** Documentation, Standard Operating Procedures (SOP's), CONOPS, Quick-Start Guides, User Manuals, Workflow Diagrams, Workflow Analysis, and Periodic Auditing of Processes

Why We're Different:

- 25% of the federal government's workforce is slated to retire within the next 5 years. Our millennial centric corporate culture can fill the training and systems integration gap for the next generation of government employment.
- Since there is a large number of growing cyber threats, government enterprises need more Instructors, IT Professionals, and Cyber Security Analysts that are constantly keeping up with the most recent cyber defense tactics and methodologies in order to install and secure information.
- Government also needs professionals that have the ability to stay up to date with current technologies and tools, as well as keeping up with the most recent teaching, installation, maintenance, and development methods.

We Communicate Effectively:

- Our IT Professionals, Instructors, and Analysts bridge the gap between leadership and the end user.
- We meet with leadership to gain the requirements and flush out the exact details by meeting with the end user.
- This allows our team to catch any miscommunication early and report the findings to leadership.

Executing in Any Challenging Environment: CONUS, OCONUS, NSA, CIA, DoD, Federal Government

Black Viper Technologies, Inc., was founded on November 21, 2017, and is solely dedicated to always serving our client's needs above all.
